SUMMARY

Web Developer and ICT Support Specialist with strong practical experience in creating responsive websites, WordPress solutions, and graphics design for digital branding. Skilled in HTML, CSS, JavaScript, and front-end optimization, with additional strengths in ICT support including networking, troubleshooting, and system maintenance. Proven ability to deliver functional, user-friendly digital solutions through real-world projects and client-focused work.

TECHNICAL SKILLS

- **Web Development:** HTML5, CSS3, JavaScript (ES6+), Git, GitHub
- **CMS:** WordPress (business & eCommerce sites – themes, plugins, customization)
- **Graphics & Media:** Canva (posters, social media content), Photoshop (basic editing)
- **ICT Support:** Networking (LAN/WAN setup, troubleshooting), hardware/software maintenance
- **Deployment:** GitHub Pages, basic hosting (domains, DNS, FTP)

WORK EXPERIENCE

Freelance Web Developer & Graphics Designer

Self-Employed | Feb 2025 – Present

- Designed and developed websites for small businesses and personal clients using WordPress, HTML, and CSS.
- Customized themes, created responsive layouts, and optimized sites for performance.
- Produced digital branding materials including posters, banners, and social media graphics.
- Managed deployments and domain/hosting setups to deliver complete end-to-end solutions.

ICT Support & Web Development

Nairobi City Water & Sewerage Company | Sept 2024 – Dec 2024

- Delivered ICT support by troubleshooting network issues, configuring devices, and ensuring reliable connectivity.
- Assisted in hardware/software maintenance, improving system performance and reducing downtime.
- Contributed to web development tasks using JavaScript, enhancing usability and engagement.

Web Developer (Contract Project)

Cameo | June 2024 – Sept 2024

- Designed and developed a real estate website with property listings, filters, and detailed property views.
- Improved loading times by 40% through performance optimization and asset compression.
- Conducted site audits and applied fixes that enhanced overall speed and reliability.

Assistant Network Administrator & Hardware Technician

Geomin Technical Works | Sept 2023 – March 2024

- Supported system maintenance, troubleshooting, and CCTV data management for clients.
- Assembled and upgraded computer systems, ensuring optimal hardware functionality.
- Assisted in data verification and provided technical support for daily operations.

EDUCATION

Advanced Diploma in Computer and Software Engineering
NIBS Technical College, Kenya | June 2022 – June 2024
Graduated with Distinction, October 2024

PROJECTS

Personal Portfolio Website

https://joseph034-cpu.github.io/joengash.com

- Built a personal portfolio with HTML, CSS, and JavaScript.
- Designed responsive layouts and integrated GitHub API for projects.
- Achieved 95+ Google Page Speed score.

Purith Essence – Perfume Store Website

https://joseph034-cpu.github.io/Purith-Essence.com/

- Created a mock e-commerce perfume store using HTML, CSS, and JavaScript.
- Implemented product categories and responsive design for better user experience.

Malitek – Tech & Electronics Online Store (WordPress)

https://malitek.liveblog365.com/

- Developed a WordPress site showcasing tech products and integrated WhatsApp ordering.
- Structured professional product pages and improved online visibility.

VertexTech – Flower Display Website (WordPress)

https://vertextech.unaux.com

- Designed a WordPress website to showcase flower varieties in an elegant, visually appealing layout.
- Focused on creating a clean, responsive design with a calm aesthetic to highlight floral images.
- Demonstrated strong use of WordPress customization and page design principles.

Graphics Design Portfolio

josephgcreative.my.canva.site

- Created professional posters, banners, and social media content for branding and advertising.
