About Me

I am a creative and detail-oriented Web Developer with 2+ years of experience designing and developing responsive websites and web applications. Skilled in HTML, CSS, JavaScript, and modern frameworks like React. Proven ability to optimize website performance, ensuring fast load times and seamless user experiences. Passionate about creating intuitive designs that align with business goals.

Technical Skills

- **Front-End**: HTML5, CSS3, JavaScript, React.js
- **Back-End**: PHP, Python
- **Databases**: MySQL
- **Other**: Photo and video editor

Personal experience

- I developed a website for showcasing real estate properties, including detailed descriptions, images, pricing, and location information. The site allows users to browse properties, filter based on their preferences, and view property details in an easy-to-navigate interface.
- I also created a website that displays detailed information about different laptops, including specifications, features, prices, and user reviews. Users can easily browse through various models, compare options, and find the best laptop based on their needs.

Education

Diploma in Computer and Software Engineering
At Nibs Technical College
Graduated: October 2024

Projects

Portfolio Website

- Created a personal portfolio website showcasing projects, blog posts, and achievements using HTML5, CSS and JavaScript.
- Integrated GitHub API to display live project repositories.
- Achieved a Google Page Speed score of 95+ by optimizing assets and implementing best practices.

Certifications

- Google Certified Mobile Web Specialist
- Responsive Web Design Certification
